MASONIC BANQUET HUGE SUCCESS

The banquet sponsored by the Bassano Masonic Property Association on Wednesday, August 15th in the Banquet Room of the Masonic Hall was attended by 250 members and visitors. A sumptuous repast was served by members of the Mary Keohane Chapter of the Order of the Eastern Star and the ladies are to be complimented on the efficient way in which the banquet was organized and conducted.

The highlight of the evening was the draw for the new automobile and various consolation prizes offered by the Masonic Property Association. Gordon Hill of Bassano was the fortunate winner of the new car.

The net profit from the banquet was approximately \$3,700.00, which was used to retire the balance of the loan raised for the construction of the lodge hall last year.

EID REPAIRING BASSANO DAM

The ravages of time are beginning to show on the Bassano Dam and it was found necessary to make some minor repairs to parts of the structure to prevent further erosion of the giant dam.

The dam is inspected periodically and signs of wear and erosion carefully noted so that a crew can repair all signs of decay before the main structure may be weakened by the weight of water and weather conditions.

The water was shut off to facilitate the work of the repair crew and hundreds of fish were seen floundering around in the shallow water near the spillway. Also more than 100 fish hooks and lures were found snagged in the rocks where unfortunate fishermen had lost them.

The Bassano Dam was completed in 1913 and, while now used exclusively for irrigation purposes, was, at one time, also used to generate the electric power used at the dam.

TOWN FOREMAN WARNS PARENTS

William Rutschko, Town Foreman of Bassano, stated that some parents are allowing their small children to play near the ditches dug for new water and sewer installations on Fourth Avenue. He stated that the sandy condition of the soil made cave-ins very likely, even when shored up with timbers, and it was highly dangerous for anyone, children or grownups alike, to venture too near to the ditch in case they caused a cave-in and were carried into the ditch and buried in the sand.

Every effort is being made to complete a small portion of the installations and backfill the ditch as soon as possible, Mr. Rutschko said, but the danger of a cave-in in the exposed part of the ditch is something that all parents should bear in mind. Small children should definitely not be allowed to play near these ditches or tragic consequences might result.

TOWN TOPICS

Mr. Dave Garrick, our genial manager of the Bassano branch of the Royal Bank of Canada is taking a two weeks holiday at present.

Oland Construction has the roof on the new school building and prospects are good for the building to be completed by the end of October. The school building being used at present was built in 1912.

TOWN TOPICS

Mr. and Mrs. Frank Hayes and family motored to Maple Creek and Gull Lake, Sask. on Sunday.

Mr. and Mrs. V. Kupchenko and son left for Drayton Valley on Wednesday. Mr. Kupchenko will teach in the Drayton Valley High School and Mrs. Kupchenko will teach in the grade two room. Drayton Valley is 70 miles south west of Edmonton.

Joe Uebell is trying a new idea for Bassano in offering a midnight show on Sunday night, September 2nd. It could easily prove a hit too, judging by the numbers of young folk still circulating around town well after midnight.

Mrs. Hellwig and Jerry are visiting Mr. and Mrs. Jack Cote for a few days.

Mr. and Mrs. Bingham have left on an extended trip through the States. They expect to be away for two weeks.

Bob Schornagel returned on Friday from the cadet training camp at Vernon, B.C. He claims he thoroughly enjoyed his trip.

There is so much fuss over the Suez Canal these days that perhaps we should put the Bassano Dam under international control before the Russians find out that it is controlled by local autonomy and start a new war.

Mr. and Mrs. John W. Roberts and Mrs. Smith of Vernon, B.C. are visiting old friends at Cluny and Bassano. Mr. Roberts lived in Bassano from 1912 to 1920 and was clerking at the McKee store at the time he left Bassano. He is now employed by the O.K. Telephone Company at Vernon. Mrs. Smith is Mr. Roberts' sister.

The Anglican Ladies Guild will hold a Bake Sale at the Pioneer Meat Market on Saturday, August 25th starting at 2:30 P.M.

Mr. Stuckey of Edmonton paid a short visit to Bassano on Wednesday. He used to be a well known citizen of Bassano and Rosemary about 25 years ago. He now has a responsible position with one of the major oil companies.

It is reported that the crack C.P.R. train, The Canadian, was stopped at Bassano recently in order that Mr. and Mrs. Simpson might come directly home instead of going on to Calgary and returning by a local train. That must have required nearly as much "pull" as the power needed to propel the train.

We have just noticed a combine working near Bassano so the first wheat of the season is probably in the elevator by now.

Another Carnival and Dance will be held in the Bassano curling rink this Saturday night.

It is reported that arrangements have been completed for the Stampede to be held at Bassano on September 5th. There is also a rumor to the effect that a riding contest for a sizable side bet will be conducted by two of our well known citizens to settle an argument. As Bassano is notorious for the good cowboy shows put on here each year, a sell-out crowd is expected.

Men from Mars or something caused quite a disturbance at the Trailer Camp about 4:30 the other morning. It appears that some peaceful citizens were attacked. Shame on somebody!

Voluntary instructors for Home Nursing classes

(By Mrs. Ella Donnelly, Director, Nursing Services
Saskatchewan Division, Canadian Red Cross Society)

Without warning someone in your family takes sick and on top of all your other household duties, you find yourself in a position of being a nurse. To a trained nurse this situation does not present serious obstacles, but for a young wife and mother or daughter, their feeling of helplessness is matched only by the fear of doing something wrong.

The problem is not a new one. It has been duplicated in countless homes since time immemorial. However, in hundreds of Canadian homes, there is at least one member of the family who does know what to do when illness occurs.

The Canadian Red Cross has been among those concerned with the teaching of Home Nursing. The Red Cross Home Nursing Course is an educational program taught by volunteer professional nurses to lay people. The course consists of at least 12 two-hour instruction, demonstration and practice periods.

The Home Nursing Course teaches the members of the class to recognize the symptoms of illness and how to report these to a doctor, how to keep a patient clean, comfortable and well nourished, how to give simple treatments and medicines ordered by the attending doctor. How to control the spread of communicable disease, how to use community health services and how to make improvised equipment.

Here the students are taught how to make a bed snug and tight so it will stay made, how to transform ordinary newspapers into bedside bags; how to bathe, change and feed a patient in bed. Resourcefulness in making use of common ordinary materials, available in the home, in meeting the needs of the patient are encouraged.

The primary aim of home nursing instruction is to help individuals to give better care to the new born baby, the aged and all others in their immediate family, the people who have taken this course can be very helpful in the community needs.

This is particularly true in time of disaster or epidemics when these home trained individuals may contribute their services to neighbors, to accident victims and refugees.

Although ever greater numbers of hospitals are being built, and more doctors and professional nurses are being educated and trained, yet the need for better home nursing care continues to grow. Most doctors depend upon someone in the home to give simple nursing care to a patient. New treatments being developed shorten the average days that patients stay in hospitals and consequently home care assumes even greater importance. Children with minor ills traditionally have been cared for at home as have aged and chronically ill.

Local Red Cross Branches take the responsibility of organizing the Home Nursing classes and a suitable classroom for demonstration and practice. This may be a hall, school, or a hospital ward—or it could be in a home large enough to accommodate a group of 12-20 people. Active or inactive graduate nurses (eligible for registration) act as volunteer instructors.

Home Nursing Manuals are available as well as instructors

Helps You Overcome FALSE TEETH Looseness and Worry

No longer be annoyed or feel ill-at-ease because of loose, wobbly false teeth. FASTEETH, an improved alkaline (non-acid) powder, sprinkled on your plates holds them firm so they feel more comfortable. Avoid embarrassment caused by loose plates. Get FASTEETH today at any drug counter.

Guides.

If there is no Red Cross Branch in your community the Director, Nursing Services at Provincial Headquarters in Regina will be pleased to hear from you and assist you in any way possible.

As the leaves turn yellow and swirl around your feet and the birds assemble ready to migrate to the South, your thoughts turn to what you can accomplish this winter—not only for your own good but also for others.

Have you thought of taking the Home Nursing course?

The security that springs from love is the very heart of our living. It is a privilege known only in a country such as ours, where men and women are free to work together for it.

And when we live up to the privilege of taking care of our own, we also best take care of our country. For the strength of Canada lies in secure homes all joined in a common security.

Increased production of stoves, furnaces

Production of warm air furnaces rose to 10,557 units in May from 8,044 in the preceding month. At the same time the output of 4-element domestic cooking stoves and ranges increased to 22,862 units from 20,402, gas cooking stoves (no oven) to 4,316 units from 2,714 solid fuel cooking stoves and ranges to 2,414 from 2,142, and fuel oil (distillate) cooking stoves and ranges to 817 from 525. The month's output of fuel oil (distillate) heating stoves and space heaters fell to 4,686 units from 6,337, electric rangelets to 3,530 from 4,550, solid fuel heating stoves and space heaters to 1,524 from 1,881, and gas cooking plates (no oven) to 711 from 781.

Of the approximately 700,000 words in the English language, nearly one-half consist of scientific terminology.

ED SULLIVAN, of television fame, was in hospital recently following an auto accident which injured Sullivan, two occupants of his car and the driver of the other car. Sullivan received contusions of the chest and is reported in fair condition. The mishap occurred, police said, when the approaching auto veered to the left side of the two lane highway. Joseph Palmucci, driver of the other car, is also in hospital with a broken hip and facial injuries. Sullivan's son-in-law, Robert Precht, and a private detective, hired by Sullivan, were also injured in the head-on crash. Precht suffered a broken ankle and Ralph Lacace, the detective, was unconscious with a fractured skull when admitted to the hospital.

Fashions

Young ensemble

by Anne Adams

She'll love the scooped-neck dress with its "grownup" Empire styling; add the little bolero to complete the smart ensemble! Perfect fashions for a gay plaid cotton, crisp pique, or a fine linen for her "Sunday" outfit!

This pattern easy to use, simple to sew, is tested for fit. Has complete illustrated instructions.

Send thirty-five cents (35c) in coins (stamps cannot be accepted) for this pattern. Write plainly Size, Name, Address and Style Number and send orders to:

Anne Adams Pattern Dept.,
Department P.P.L.,

60 Front Street W., Toronto.

Be sure to write plainly your Name, Address and Pattern Number.

TRY AND STOP ME!

By BENNETT CERRY

They are singing the praises of an obstetrician in Dayton, O., who has two fixed charges for his services: \$100 or \$200. "Do you look up your patients' financial rating before you decide?" he was asked. "Not at all," the obstetrician answered. "I base my charge on the first question the father asks me when I come out of the delivery room. If he says 'Is it a boy or a girl?' he gets a \$200 charge. But if he says, 'Is my wife all right, doctor?' I bill him for only a hundred."

A famous movie star who was being analyzed told her doctor that one recurring dream was really giving her the heebie-jeebies. "I keep dreaming that I'm walking down Hollywood Boulevard without a stitch of clothing on my back," she confessed. "What does that mean, Doctor?"

"It all depends on how you react to the dream," said her analyst. "Are you embarrassed?" "Definitely," the star declared. "I'm always wearing my last year's hat!"

Definition of "fireproof": the boss' relatives.

Enrich linens

7021

by Alice Brooks

Want really satisfying needlework? Do this doubly interesting design. Embroider girl and flowers, crochet skirt and edging. Add a lovely touch to gift linens!

Decorate linens! Pattern 7021: transfer, one 11 1/2 x 19, two 8 1/2 by 15-inch motifs; crochet directions.

INTERESTING PORTS OF CALL FOR MAURETANIA PASSENGERS

Four Sunshine Cruises to the West Indies and South America have been scheduled for the Cunard liner Mauretania during the 1956-57 winter season. T. G. Miller, general passenger manager in Canada of the Cunard Line, announced today. The voyages will range from 14 to 18 days, and the Mauretania's cruising speed will enable her to call at considerably more ports on each cruise.

The 36,000-ton Mauretania will sail from New York Feb. 7 for an 18-day cruise to ten principal Caribbean ports. Minimum rate for this voyage is \$515. This will be followed by a 17-day cruise leaving New York Feb. 28. Rates begin at \$485, and a special feature of this trip will be the Mauretania's first visit to the island of Nevis, birthplace of Alexander Hamilton. Nevis will celebrate the bi-centennial of Hamilton's birth during 1957.

The Mauretania leaves New York March 21 on a 14-day cruise to eight ports, with a minimum rate of \$390, and on April 6 she completes her cruising season with a 15-day voyage to nine ports. Rates for this cruise start at \$395.

Among the varied ports of call to be visited on one or more of the Sunshine Cruises, are: Nassau, St. Thomas, Martinique, Barbados, Trinidad, La Guaira, Curacao, Cristobal, Kingston, Havana, Port-au-Prince, Nevis, Grenada and St. Lucia.

The Mauretania begins her

cruising season with a 29-day voyage to Rio de Janeiro and the West Indies, sailing from New York Dec. 22. This cruise will mark the Mauretania's first call at Rio. A 14-day Christmas and New Year's Cruise is also scheduled for Cunard's new Carinthia sailing Dec. 22. Each cruise will feature an extensive program of ship-board activities under the direction of an experienced cruise staff; gay night life, highlighted by Broadway entertainers; deck sports and outdoor swimming; and shore excursions to inland spots at many ports of call.

U.S. FLEET ALSO

The United States Sixth Fleet, riding troubled waters in the Mediterranean during the Suez canal crisis, normally consists of more than 30 ships of several classes, manned by more than 20,000 officers and men and a reinforced battalion of Marines.

Discovers Way to Shrink Painful Piles

Here is a nice, clean, easy way to get real relief from the nagging distress of swollen, painful piles without the inconvenience of ointments, pile pipes or suppositories.

The secret is in taking just one small Hem-Roid Tablet, with water, two or three times a day. Works through effective INTERNAL action. Quickly eases constipation, relieves itching, soreness and pain. Helps shrink piles and permits them to heal.

Why suffer needlessly when Hem-Roid offers you so much. Get a package today. See for yourself how nice Hem-Roid is to use, how effective it is and how much more comfort it will quickly bring you. All drug stores. Low cost. Money refunded if you are not 100% pleased.

Published every Thursday by Hugh Pearce, Bassano, Alberta. Authorized as Second Class Mail by the Postoffice Department, Ottawa.

THE OBSERVER

BY HUGH PEARCE

I have heard that quite a few people in Bassano and district are keenly interested in various types of handicraft work. A few paint or sketch, some do petti-point, some prefer ceramics some do wood working and a few do tooled leather work.

The Department of Economic Affairs of the Provincial Government has organized a special branch to encourage these people to organize a local group so that it would be possible to receive instruction in crafts and arts and to make it easier to obtain the tools and equipment necessary to practice the various crafts.

Mrs. F.O. Bulger of Bassano is well known for her interest in handicrafts and a few weeks ago I recommended her to the Department as one who would be qualified to take the lead in organizing a local crafts and arts society in Bassano. The Department's letter to Mrs. Bulger, dated August 9th, states in part as follows:

"The Cultural Activities Branch has a program where aid is given to help the communities to set up groups of persons interested in Crafts.

Once such a centre has been organized it is then possible for the centre to obtain equipment such as kilns, looms, wood and leather tools, etc. on a rental basis. When the initial cost of the equipment is reached it is then turned over to the craft centre and becomes their property for future use of the centre.

The Government also provides instructors on request from a centre when they are assured of a class of 20 persons. There are also plans for marketing the craft goods if they wish to sell their articles. Arrangements of handicraft exhibitions and scholarships for persons of craft centres who can be recommended to take a summer course in Banff so that they will be able to help teach in their own centres.

It is the purpose of this branch to promote skilled craftsmanship and understanding of design among the craft groups. The examples of work done in our established craft centres show an increasingly high quality of work as trained instructors and leaders have been able to work with the groups.

It is with this view in mind of extending our services on a wide field that the Co-ordinator and I have planned to visit the southern area after the middle of September. We would like to hear if the craft people of Bassano and district would be interested in our program"

Now this should be very interesting to those who make a hobby of one of the crafts. Mrs. Bulger's idea is to call a meeting of all craft minded people shortly after the opening of school (so that all the teachers would have a good opportunity to attend) and ascertain if interest in handicrafts is high enough to warrant an organization in Bassano. If anyone wishes further information with regard to the proposed organizing of a craft centre they should phone Mrs. Bulger or Mrs. Elsie Bodmer. There are, no doubt, several people who are deeply interested in some form of handicrafts but lack the necessary knowledge to actually be able to do them to their own satisfaction. If all "Crafters" in this district pulled together and promoted a craft centre in Bassano, they would not only benefit by pooling their knowledge to help each other but would be able to obtain the services of skilled instructors as well. Anyway, some decision should be reached by the time these men from Edmonton visit us.

We have the ball rolling "Crafters". If you are interested, it is now up to you!

SHOWTIME

PLEASE NOTE - Starting Saturday, August 25th, there will be TWO shows each Saturday night until further notice. The first show will start at 7:30 and the second show at 9:15.

If you liked "THE LIVING DESERT" and "THE VANISHING PRAIRIE" be sure to see Walt Disney's latest Technicolor True Life Adventure Story -

Many accidents even under "ideal" driving conditions

Daylight hours, clear weather, good paved roads and experienced drivers—this combination played a major part in the number of motor vehicle accidents in Saskatchewan during the first six months of 1956.

A report issued by the highway traffic board noted that to the end of June there were 3,888 motor vehicle accidents in the province, of which almost 61 percent occurred during daylight hours; 77 percent on good roads; over 52 percent on paved roads and over 30 percent of the drivers involved were between the ages of 25 and 34 years.

These accidents occurred on almost every type of road location; at street intersections with traffic lights, with police control, with stop signs or flashing lights, warning and slow signs; between intersections; at intersections of private driveways, streets or roads; on straight stretches of highway, on curves, hills, at railway crossings, with and without automatic signals, gates or watchmen and also on bridges.

The majority of accidents involved other motor vehicles, although almost 1,000 accidents were non-collision or the vehicle overturned. Along with striking fixed objects, Saskatchewan drivers were involved in accidents with people and almost every type of mobile vehicle using the highway. They ran into pedestrians, animals, horse-drawn vehicles, bicycles, motorcycles, buses or street cars, trains, and miscellaneous classes such as farm equipment, tractors, etc.

Along with the 3,888 motor vehicle accidents reported in the province to the end of June, there were 38 fatalities, 1,097 persons were injured and property damage amounted to \$1,305,677.

WEEKLY BIBLE COMMENT

TRUTH IS FABRIC OF BIBLE'S IMAGERY

A fact which we ought to bear in mind as we read the Bible is that it is a book of the East, with all the Eastern imagery and traditional manner of figurative speech.

It is a mistake to interpret something which is figurative or symbolic as literal, but it is equally a mistake to imagine that the truth of the Bible is any less real because it is sometimes expressed in parables.

The woman who lost the piece of silver might have been an actual woman that Jesus had in mind, or she might have been symbolic of those who earnestly seek and find.

In the story of the prodigal son, we have all the facts concerning sin and salvation presented in the imagery of the parable. Salvation does not mean that the consequences of sin are entirely removed. When the prodigal sinned he suffered, and there are sins that leave indelible marks which cannot be removed.

This does not mean that sin cannot be forgiven, nor does it mean that there cannot be spiritual restoration, though the consequences of sin often go on and on.

The great fact is that God acts toward His human children like the good father of the parable. The parable's imagery shows that when men turn from their sins, He is full of forgiveness and willingness to restore them to their rightful place.

A handful of patience is worth a bushel of brains.

Creamery butter stocks smaller

Stocks of creamery butter in nine cities of Canada declined slightly to 66,101,000 pounds at July 19 from 67,322,000 on the corresponding date last year. Stocks in the nine cities (in thousand pounds) were: Quebec, 5,086 (4,751) a year earlier; Montreal, 35,296 (32,248); Toronto, 6,449 (9,610); Winnipeg, 15,148 (15,665); Regina, 803 (1,262); Saskatoon, 790 (627); Edmonton, 992 (1,932); Calgary, 530 (454); and Vancouver, 1,007 (773).

LOSE A MINUTE—SAVE A LIFE

Commenting on the above statistics, highway traffic board officials said they show a great need for conscious care and courtesy by everyone using the province's streets and highways, to keep the tragic toll of life and property in Saskatchewan to a minimum.

World Happenings In Pictures

THE BELL X-2, stainless steel and nickel alloy rocket plane nestles under a mother ship prior to release during a recent test flight in which the aircraft reached a new high mark for speed. The rocket, piloted by Lt. Col. Frank K. (Pete) Everest, chief of flight testing operations at Edwards Air Force Base, Calif., was clocked at 1,900 m.p.h.

LONG-DISTANCE HOUSEWARMING—Residents of Rollingwood housing development near San Bruno, Calif., watch as a little girl, left, adds a bathroom scale to a packing-case-ful of "housewarming" presents which will accompany a full-size American home on its journey to Russia. The house and everything in it, including the kitchen sink, has been purchased by Russia in wake of a building delegation's visit to this country last fall. House has been disassembled, crated and en route to Russia.

"SEA-GOING BABY-SITTERS"—Two members of the ship's company of the Esquimalt-based frigate HMCS Jonquiere recently had the somewhat unusual but pleasant duty of being "sea-going baby-sitters" to the granddaughters of His Excellency, the Right Honourable Vincent Massey, C.M., Governor-General of Canada. His Excellency sailed in the Jonquiere from Prince Rupert, B.C., to Victoria but the children of his son, Mr. Lionel Massey, joined the ship when it arrived at Squamish, B.C. During the remainder of their stay in the Jonquiere the three young girls were looked after by their two Naval guardians. In this photograph, taken at Squamish, the two sailors, AB D. J. Stith, of Nipawin, Sask., left rear, and AB G. K. Knox, of Edmonton, Alta., are shown with their young charges, left to right: Jane, Susan and Eva.

POLITICAL LICENSE—Max Gutierrez, of San Francisco, Calif., views one of the "Ike 1956" stickers you're apt to bump into on California highways during the Republican national convention, which opens August 20. The license-like bumper plasters feature black numerals on a yellow ground and are very similar to California's official auto registration tag. In place of the "56" for year designation they substitute the word "FOR", so that sticker reads: "CALIFORNIA FOR IKE 1956".

BASEBALL A LA TOKYO—Baseball, the American pastime, gets the full treatment for Japan's pro-baseball All-Star game in Korakuen Stadium in Tokyo. It's a royal fanfare, including ascending balloons, costumed girls and brassy bands, and a capacity crowd of 45,000 ardent fans as the top players from Japan's two major leagues await the "Play ball" cry.

LIVES TO TELL ABOUT IT—Linda Morgan, who was carried away alive on death-dealing prow of the Swedish liner Stockholm after her collision with the ill-fated Andrea Doria, greets her rescuer, seaman Bernabe Polanco Garcia, as he visits her in a New York hospital. Garcia sighted Linda lying in twisted wreckage of the prow, which had shattered first class cabin which she occupied. Killed were her stepfather, correspondent Camille Cianferra, his eight-year-old daughter and his wife, who together with Linda, occupied cabins 52 and 54 of the ill-fated liner.
